SANG AT AN INDIAN'S GRAVE.

"Home, Sweet Home," Was Chanted Under Peculiar Circumstances When the boundary line between Ten-

nessee and Georgia was established, it passed half a mile south of the spring Tuck-a-lee-chee-chee, among the foothills of the Unakas, and as it crossed one of the principal Indian trails it became a place of much importance. There had already grown up a strong rivalry between the Tennessee tribes, headed by Chief Ross, and the Georgia tribes headed by Major Ridge, both half breeds and men of extraordinary ability as leaders. The establishment of the boundary line fixed the limits of their respective territories, and to try and harmonize as far as possible the contending factions the government established a trading post there. Identifying Fishes. To the known species of North Amer-ican fishes, which now number about fifteen hundred, additions are constantly being made. New species are discovered in various ways. It may be that men regularly engaged in fishing find species that are new to them, and which they send for identification to the nearest college or other institution giving special attention to zoology, or perhaps to the Smithsonian institution at Washington.
